

1st May 2020

Coronavirus (Covid 19) Update

Over a month has passed since we took the decision to suspend site works. Our priority remains the same, to protect the well being of our workers, colleagues and contractors.

Throughout this period we have continued working from home. The Construction Leadership Councils published Version 3 of their Site Operating Procedures on the 14th April. Having carefully reviewed this document, and other industry guidance we are now confident that we can implement and adhere to these procedures across our site activities.

Therefore we are pleased to advise that we will make a **'soft start'** to site activities on Monday 4th May 2020.

We will continue to monitor the ongoing situation, government policy and industry guidance and will adjust our approach as required.

Yours Sincerely
